Steps to Sign up and Log in to *Get Real* for Parents

Parents and other caring adults: Obtain the educator code from your young person(s) and then complete the following steps:

1. Go to **parent.getrealeducation.org** in Chrome or Firefox.

2. On the left hand side of the screen you will see a yellow/orange button that says "First time user?" **Click on that**.

3. A screen will pop up that asks you to **please enter your code**. Enter the educator code you were provided. Press **Continue.**

4. After you have successfully entered the code, another box will pop up asking you to **connect your email address**. Enter your name in the first box, and then the email address you would like associated with your *Get Real* for Parents account in the second box. **Click Next**.

5. A third box will pop-up that says an email has been sent. Go to the email inbox for the email address you just entered. **You should see an email from *Get Real* Education** with a subject line of "Log in to *Get Real* for Parents."

6. **Open that email and click on the link in the email**. This will take you back to parent.getrealeducation.org where you will see a box asking for a student's name.

7. **Enter your student's name** and select the grade that the student is in. Press **Submit.**

8. You will then arrive at the homepage of activities (Dashboard) for you and your student. **At this point you may click "start lesson" for any of the lessons, and explore the remainder of the website**.

9. Each time you log in to parent.getrealeducation.org you will be taken directly to this homepage as long as you remain signed in. If you log out, you will be asked to enter your email address again, and click on the link in your email to return to the Dashboard.

10. To change the grade of an existing student, **click on Account Settings** in the upper right corner of the page. You will see the 'Student Info' section, where your enrolled student's name and grade is listed. **Click the drop down arrow in the grade selection box** to change the grade. **Press Submit**. You will now be able to see the lessons for that student's new grade in your dashboard.

11. To add another student in another grade, **click on Account Settings and then click on 'Add another student'** found just underneath the grade selection box. **Enter the student's name, select their grade, and press Submit**. To get back to your dashboard, **click Lessons** in the blue menu bar at the top of the screen. You will now be able to see your added students and/or different grade selections based on your updates.
